SAVE MY SEAT

THREE CHANGES. THREE DIFFERENT TIMELINES.

One has a hard deadline in a few weeks.

One changes how your electrical work gets planned.

One changes what belongs in your first aid kits.

Each one lands on someone's desk. Usually the same person who already has a full-time job.

This webinar walks you through what changed, who it affects, and what to do next.

No legal jargon. No sales pitch. Just a clear plan.

SAVE MY SEAT

01 — HAZCOM: NOVEMBER 20, 2026

HAZCOM:

NOVEMBER 20, 2026

If you store or use chemicals, this one is yours.

That includes cleaning products. Aerosols. Fuels. Solvents. Cannabis operations.
Maintenance shops.

OSHA moved the employer deadline from July 20, 2026 to November 20, 2026.
By that date, employers need substance-related updates to:

- Workplace labels
- The written HazCom program
- Employee training

Aerosols and flammable gases are part of what changed. Those products are in almost every workplace.

The deadline for mixture-related updates comes later, on May 19, 2028.

Don't take our word for it. Read it yourself.
